GLASS SYSTEMS

TEA GLASS SYSTEM 200ml

The **finum**® glass systems are equipped with perfectly matching permanent filters – a simple and elegant solution for individual tea brewing. Each system comes with a hat to prevent heat loss and to serve as drip-off tray after brewing. The hat makes it easy to brew, pure tea right at the table.

ABOUT FINUM

finum® is the brand of the German filter manufacturer **Riensch & Held GmbH & Co. KG**. The production company was founded in 1845 as an international trading company.

The filter products manufactured in Hamburg are offered to consumers from all over the world as both OEM components and private label products. Innovation and sustainability are the main characteristics of our products as well as of our certified facility with its modern manufacturing technology.

Accessories for tea, coffee & spices.

With its accessories **finum®** represents design, functionality and sustainability. We are committed to the conscious preparation of tea, coffee and spices - for more taste and a careful use of our natural resources.

Discover our range of products:

Renowned for its flavor-enhancing products, **finum®** holds the leading role in the manufacturing of biodegradable tea filters. The brand also offers a series of unique brewers for tea and coffee, teaming patented German filter technology with elegant glassware, as well as award winning coffee and spice grinders.

With the tea accessories by **finum®** you can enjoy the valuable ingredients and the fine aroma of loose leaf tea.

Coffee beans and spices are gently and freshly ground with **finum®** manual grinders. Experience the pleasure and easiness of brewing your coffee by hand.

The **finum®** slogan says it all:
"...do yourself a flavor"

Kind regards from Hamburg,

Your Christian Justus
